

I am concerned about the expansion of the LPFM stations and their effect on the FM translator services. My family is a long time supporter and listener to K-Love radio station in our local community of Albuquerque. We support and listen to this station because it is a clean and family friendly station. I never have to worry about what my children might hear on this station. K-Love has a positive influence in the community, by providing family friendly, positive, programming. I would hate to lose this station because the alternatives are not family friendly.
